PRECONSTRUCTION INTELLIGENCE

Know what your preconstruction decisions rest on.

Most pursuit decisions are made on partial history, inferred risk and an unclear handoff. OIG shows which of those you know, which you are inferring, and which you have not examined yet.

KNOWN	INFERRED	UNKNOWN
Supported by records you can point to.	Believed, but not tied to evidence yet.	Not yet examined. This is where the risk sits.

Try it in two minutes

Answer three questions about one pursuit decision and see where your attention should go first. No signup. No data is sent.

Who this is for

Preconstruction leaders, estimating managers and chief estimators at general and specialty contractors who want pursuit, handoff and cost-history decisions to be defensible.

PRECONSTRUCTION FOCUSED REVIEW

One question. One team. A clear first action.

Introductory market-test price: **$495**. No payment is taken on the website. OIG confirms fit and scope in writing, then sends an invoice.

YOU RECEIVE

- One-page intelligence node map
- Known, inferred and unknown register
- Top three improvement opportunities
- Recommended first 30-day action with a suggested owner
- 30-minute readout call

SCOPE AND LIMITS

- One decision area, one team
- No software implementation
- No savings or ROI estimates
- No review of confidential bid pricing
- Findings reflect only the materials you share

TURNAROUND	Target delivery within 10 business days after scope is agreed and required materials are received. Timing and deliverables are confirmed in writing before payment.
FOCUS AREAS	Pursuit decisions, estimate-to-project handoff, estimating capacity, historical cost use.
HOW TO REQUEST	Complete the request form at the link below. OIG replies to confirm fit.
SAMPLE	A fictional sample deliverable is available at oigops.com/assets/oig-sample-preconstruction-focused-review.pdf

REQUEST A FOCUSED REVIEW

oigops.com/lab?source=pdf#review

Optional: ongoing preconstruction intelligence support and the Preconstruction Intelligence Lab are available after a review. OIG does not publish outcome claims for this offer.
